Miguel Ángel Arroyo
Industrial Engineer

Miguel Ángel Arroyo, was born in Mexico City, where he studied in the Interdisciplinary Professional Unit of Engineering and Social Administrative Sciences (UPIICSA) of the National Polytechnic Institute, graduating as an Industrial Engineer.

His work experience has covered the positions of “Project Manager”, “Engineering Manager” and “Supply Manager” in several companies in the industrial zone in San Luis Potosí. He was also the owner of a business named “Commercial Link”, which linked companies with the right markets.

Mr. Arroyo wrote a book titled: “Free yourself and Find your Mission.”, which basically describes that it is no coincidence that you exist; you were created to develop one or more missions in your life, but you have to get rid of concepts and prejudices. He has also developed large networks in several multilevel companies. He is now the Director of “SII Global”, where he will again use his expertise to solidify another great endeavor.

The Three Phases

“Affiliate Network” Phase 2 •

“Cloud Mining” Phase 1 •

• “Foreign Exchange” Phase 3

SII Global Has 3 Main Goals

1.

To Build a Massive Cloud Mining Farm in Mexico

2.

To Build a Real Crypto Currency Networking Company

3.

To Establish a Global Foreign Exchange Service

*SII Global owns 180 mining rigs & equipment worth \$630,000, and the warehouse & land worth \$800,000. Each rig mines up to 6 coins daily 24/7 via NanoPool.org, which are exchanged for Bitcoin at a profit; then 60% of those profits are shared on Packs daily. Some of the coins mined are **Ethereum, Monero, Litecoin, ZCash**, etc., but are subject to change without notice. By purchasing a mining **Service Pack** for \$125 - \$1,000+, Clients can earn 0.4% to 1.6% daily, for up to 300 business days!*

Daily Rewards Examples

Each Mining Service Pack Pays Daily Rewards!

Pack Name	Pack Price	Service Term	Daily Low \$	Daily High \$	Monthly Average \$	Pack Completion
Start	\$125	125 Days	\$0.50	\$1.00	\$18.00	\$62.50 - \$125
Executive	\$250	150 Days	\$1.00	\$3.00	\$48.00	\$150 - \$450
Master	\$500	200 Days	\$3.00	\$6.00	\$108.00	\$600 - \$1,200
Elite	\$1,000	300 Days	\$6.00	\$16.00	\$264.00	\$1,800 - \$4,800

Each Mining “Service Pack” has the potential to generate daily rewards based on mining net profits. The “Start” Pack is basically a “break-even” pack that can pay back up to \$125 in 125 business days. The “Executive” Pack can pay back up to \$450 in 150 business days. The “Master” Pack can pay back up to \$1,200 in 200 business days. And the “Elite” Pack can pay back up to \$4,800 in 300 business days. **Larger \$5,000 - \$50,000 Packs coming soon.**

Service Packs can be purchased with  Bitcoin and  LeaderPays. Other options are available on case-by-case basis, such as bank wire, MoneyGram, credit card, etc.

“Break-Even” Examples

Daily Rewards Are Paid Out Monday - Friday!

Pack Name	Pack Price	Service Term	Daily Rewards	Longest Months	Shortest Months	Profit Potential
Start	\$125	125 Days	N/A - \$1	N/A	5.2	(-)50% - 0%
Executive	\$250	150 Days	\$2 - \$3	5.2	3.4	(-)60% - 180%
Master	\$500	200 Days	\$3 - \$6	6.9	3.4	120% - 240%
Elite	\$1,000	300 Days	\$6 - \$16	6.9	2.6	180% - 480%

The “Break-Even Examples” above demonstrates the lowest to highest Daily Reward that Service Pack(s) would have to earn daily in order to break-even, based on the longest to shortest months. In some examples, the lowest Daily Rewards would not be based on the actual minimum that Service Packs could earn. All Daily Rewards are paid out Monday thru Friday. Therefore, each month shown in chart above is based on 24 mining days per month.

The above chart is useful for Clients that choose to use their earned profits to purchase additional Service Packs. Remember that buying Service Packs to share in daily mining profits is a long-term strategy and actual results can and will vary, and are not guaranteed.

Top 3 Questions...

Answers To The 3 Main Questions Being Asked About SII Global:

Q1: If mining is so profitable, why does SII Global need to sell mining Service Packs?

Running state-of-the-art mining equipment & hardware 24/7 is expensive. Also, having a real support staff can get expensive for any company (which is why most chose to outsource instead). Therefore, like most businesses, SII Global had to decide how to raise the funds they need to expand their growing business. Bank loans are hard to get, especially for a non-tradition business like cryptocurrency mining; and crowdfunding would not have guaranteed results. Therefore, network marketing was the most logical choice, which not only helped the company, but also rewarded the participants (Clients). That's why 40% of each Service Pack sold is kept by the company to cover the maintenance and utility costs associated with the mining operation, as well as to cover the necessary expenses of maintaining an actual staff, expanding office space, etc. In addition, the more Service Packs sold, the more SII Global can re-invest into even more mining equipment to generate even larger profits, etc.

Q2: Is it legal to purchase "Service Packs" if they are promising specific returns?

As far as legalities go, every country's laws regarding the purchase of what is commonly known as a "Mining Contract" will vary from country to country. But generally speaking, it is not "illegal" to purchase a mining contract, which is why big companies like "Genesis Mining", which sells contracts for as high as \$1,950, continues to thrive worldwide. However, it is important to know that "profits" (not returns) are NEVER guaranteed by SII Global as there is a certain amount of risk associated with the buying and selling of cryptocurrencies. Therefore, you should NEVER purchase more in Service Packs than you can afford to lose.

Q3: Why should I trust that SII Global will be around for the long term?

Please see page 24 entitled "Top 11 Reasons..." to understand why this business model was developed for long term success.
